VABS accounting software

We the accounting experts at VABS providing bookkeeping solution to all the small and medium-sized business organizations. We can help your business with the below specialized services:

- VABS gives accounting system, we can help you with the initial installation and setup of the software. Financial Management, Sales Management, Supply chain, Production Management, Reporting & BI Management, our services are open to all the areas of United Arab Emirates for all your Accounting and Bookkeeping assistance.
- We can also maintain your regular business transaction and bookkeeping activities. We provide daily, weekly, monthly and yearly bookkeeping updates to our clients on their unique business requirement. Apart from that we also take care of your accounts payable, invoices, bank reconciliation, cash flows, accounts receivable, profit and loss accounts, balance sheet and other financial statements. Along with that, we do a periodic review of the account and statements to ensure proper bookkeeping.

Implementing V-tech accounting system to your small and medium-sized business is a good idea to generate profit and have a proper control over the business. Different versions of the financial software are available for Manufactures, Retails, Healthcare sectors and for all unique business need. Thus, through implementing V-tech system for bookkeeping business, you can access all the firm's important financial information regarding the inflow and outflow of cash, due and outstanding bills anytime from anywhere. Though it is said that V-tech system are simply designed to go with the needs of a layman but still there are some tricks to be played to get the best benefit of the same. Only a professional can help you in the matter.

The right virtual or outsourced bookkeeping solution can save you hours of bookkeeping time a month.

since they're generally cheaper than hiring an in-house accounting team, virtual bookkeepers can save you money, too—but only if you find the right one for your unique needs. Before you sign up for a bookkeeping service, you'll want to ask yourself questions like these:

- Does the virtual bookkeeping service sync with my preferred accounting software?
- How much money can I afford to spend on bookkeeping each month?
- Does my business use cash or accrual accounting?
- Am I looking just for bookkeeping services like financial reporting?
Or do I want additional services, like tax filing services, payroll runs, and HR advice?

Business Banking

Hassle Free Business Banking

Opening a bank account is an important aspect after obtaining the license for any business. Let us help you open an account or at least assist you with offshore banking in Dubai. Our connections with several banks allow us to help both the Free zone and mainland companies to open a bank account in the UAE. Banks have many requirements in terms of documents, minimum balance specialization in certain sectors among others. The approach can differ depending on the case. Based on the needs and preferences of our clients, we can provide them with a list of suitable and trustworthy banks. In addition to the basic documents to open an account, in some cases, additional documents also might be invoices, reference letters, etc. In case the company has a branch, documents about the parent company will be required along with bank statements.

Providing Services & Limitless Opportunities

- **Opening bank accounts and appointment of bank signatories**
- **Operation of bank accounts**
- **Cash management services**
- **Transaction's support and foreign currencies rate discount**
- **SME Finance and Business Loans**
- **Messenger services**
